

## Claim Amendments

### WHAT IS CLAIMED:

1. (Cancelled) An implantable system comprising:
  - (a) a cell repopulation source capable of forming new contractile tissue in  
5 and/or near damaged or diseased myocardial tissue; and
  - (b) an electrical stimulation device for electrically stimulating the new  
contractile tissue in and/or near the damaged or diseased or myocardial  
tissue.
- 10 2. (Cancelled) The implantable system of claim 1 wherein the cell repopulation  
source comprises undifferentiated contractile cells.
3. (Cancelled) The implantable system of claim 2 wherein the undifferentiated  
contractile cells comprise skeletal muscle satellite cells.
- 15 4. (Cancelled) The implantable system of claim 2 wherein the undifferentiated  
contractile cells comprise autologous cells.
5. (Cancelled) The implantable system of claim 1 wherein the cell repopulation  
20 source comprises genetic material.
6. (Cancelled) The implantable system of claim 5 wherein the genetic material  
comprises a delivery vehicle comprising a nucleic acid molecule.
- 25 7. (Cancelled) The implantable system of claim 6 wherein the nucleic acid molecule  
encodes a myogenic determination gene.

## Claim Amendments

8. (Cancelled) The implantable system of claim 6 wherein the delivery vehicle comprises a viral expression vector.
- 5 9. (Cancelled) The implantable system of claim 6 wherein the delivery vehicle comprises liposomes.
10. (Cancelled) The implantable system of claim 5 wherein the genetic material comprises plasmid DNA.
- 10 11. (Cancelled) The implantable system of claim 1 wherein the cell repopulation source further comprises a polymeric matrix.
12. (Cancelled) The implantable system of claim 1 wherein the cell repopulation source is associated with a carrier.
- 15 13. (Cancelled) The implantable system of claim 12 wherein the cell repopulation source is coated on a carrier.
14. (Cancelled) The implantable system of claim 1 wherein the electrical stimulation device comprises a muscle stimulator having two electrodes connected thereto.
- 20 15. (Cancelled) The implantable system of claim 14 wherein the muscle stimulator is implantable and is in the form of a capsule having electrodes incorporated therein.
- 25 16. (Cancelled) The implantable system of claim 15 wherein the muscle stimulator is a carrier for the cell repopulation source.

## Claim Amendments

17. (Cancelled) The implantable system of claim 1 wherein the electrical stimulation device provides burst stimulation.

18. (Cancelled) The implantable system of claim 1 wherein the electrical stimulation device provides pulse stimulation.

19. (Cancelled) An implantable system comprising:

- (a) a cell repopulation source for a patient's myocardium; and
- (b) an electrical stimulation device for electrically stimulating the new contractile tissue in and/or near the infarct zone of the patient's myocardium, wherein the electrical stimulation device provides burst stimulation.

20. A method of repairing the myocardium of a patient, the method comprising:

- (a) providing an implantable system comprising:
  - (i) a cell repopulation source comprising genetic material, undifferentiated contractile cells, or a combination thereof, capable of forming new contractile tissue in and/or near an infarct zone of a patient's myocardium; and
  - (ii) an electrical stimulation device for electrically stimulating the new contractile tissue in and/or near the infarct zone of the patient's myocardium;
- (b) implanting the cell repopulation source into and/or near the infarct zone of the myocardium of a patient;
- (c) allowing sufficient time for new contractile tissue to form from the cell repopulation source; and
- (d) electrically stimulating the new contractile tissue.

## Claim Amendments

21. The method of claim 20 wherein the electrical stimulation device comprises a muscle stimulator and electrodes; wherein the electrodes are implanted into and/or near the infarct zone of the myocardium.

5 22. The method of claim 20 wherein the muscle stimulator is implantable and is in the form of a capsule having electrodes incorporated therein.

23. The method of claim 22 wherein the muscle stimulator is a carrier for the cell repopulation source.

10 24. The method of claim 23 wherein the muscle stimulator and cell repopulation source are delivered to the infarct zone through a catheter.

15 25. The method of claim 20 wherein the undifferentiated contractile cells comprise autologous cells.
